1. Introduction

Spennymoor Town Council is committed to protecting the health, safety and welfare of employees and recognises that workplace stress is a health and safety issue and acknowledges the importance of identifying and reducing workplace stressors.

This Policy will apply to everyone and managers are responsible for implementation and the Council is responsible for providing the necessary resources.

2. Definition of Stress

The Health and Safety Executive define stress as “the adverse reaction people have to excessive pressure or other types of demand placed on them”. This makes an important distinction between pressure, which can be a positive state if managed correctly, and stress which can be detrimental to health.
